EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Wonsuk Choi on May 26, 2005.
3. The application has been amended as follows:
 - In claim 20, line 14, between "formed" and "on the passivation layer": Insert – corresponding to the reflective region,--;
 - In claim 20, line 16: Delete "the second opening" and replace with –the second pixel electrode--.
4. The following is an examiner's statement of reasons for allowance: As the claims were read and interpreted in light of the specification, the prior art of record fails to specifically disclose the LCD claimed by Applicant having, in particular, a first pixel electrode formed of the same material and on the same place with the gate electrode and a non-oxidizing metal layer that is formed on the transparent conductive layer and has a first opening corresponding to the transmissive region. Although US 6,195,140 to

Kubo et al. discloses many of the elements of the claimed invention, it nevertheless fails to teach a first pixel electrode formed of the same material and on the same place with the gate electrode and a non-oxidizing metal layer that is formed on the transparent conductive layer and has a first opening corresponding to the transmissive region. As a result, Allowance is proper.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
